

How to Build a Rubric in the Assignment Tool on Moodle at PIA

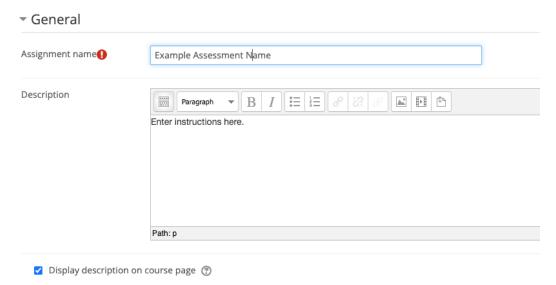

Before you start- please ensure your rubric totals 100% and each of the criteria are in 5% denominations- this is important as this is the format of the template we'll be using in this build.

Please be aware that this rubric cannot be edited once it has been attached without deleting and starting again. This is not recommended if students have already submitted.

- 1. Go to your unit and Turn Editing on
- 2. Add an Assignment Tool for assessment submission.

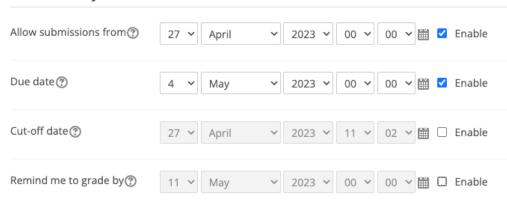

3. Give the Assignment a name and add any special instructions in the description box, remembering to click the "Display description on course page" if you want them to be visible.

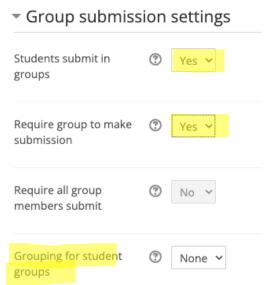

4. Set the due date as required

Availability

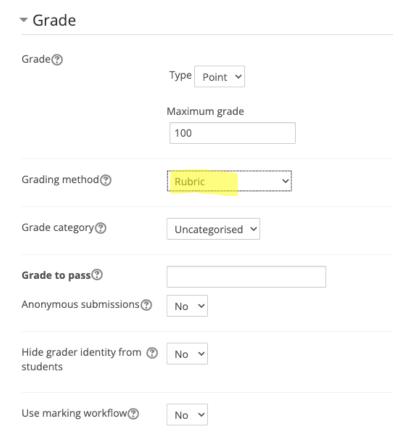

- 5. **If this is a Group Assessment,** change that setting to reflect that. If not, move ahead to the next step.
 - For Group assessments, the lecturer only needs to mark the one paper per group and the grades and feedback will automatically be visible to all members of the group. No need to copy and paste or transfer grades.
 - If there are multiple classes, please ensure you have also selected the appropriate Grouping Setting. Refer to the guide on how to do this separately on the Staff Lounge page.

6. Be aware, the Turnitin Plugin is switched on by default to check similarity and Al so no need to change that settings.

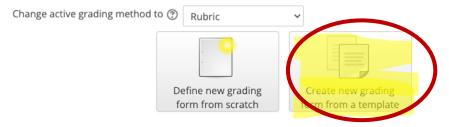

7. Scroll down to the Grade option. For Grading Method, change the drop down from "Simple Direct Grading" to "Rubric".

- 8. Then scroll to the bottom of the page and select "Save and Display"
- 9. Now, we will add our rubric. You will now see the below page.
 - You could also navigate to that by clicking on your assignment tool icon, selecting the cog icon on the right hand side and scroll down and click on "Advanced Grading".
 - Click on "Create new grading form from a template"

Advanced grading: Example Assessment Name (Submissions)

10. Scroll down to "Grading Rubric Template- do NOT Delete Shared template" and select "use this template".

IMPORTANT- Do not select the delete the option.

Delete

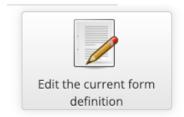

11. The below message will pop up, select "Continue".

Confirm

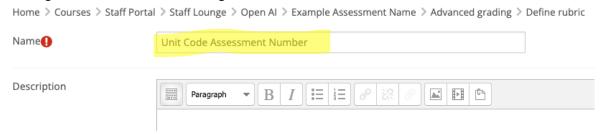

Do you want to use the grading form 'Grading Rubric Template- do NOT Delete' as a template for the new grading form in 'Example Assessment Name (Submissions)'?

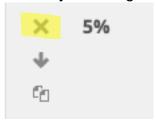

- 12. Now click on this option.
- 13. Change the Rubric name using the unit code and assessment number.

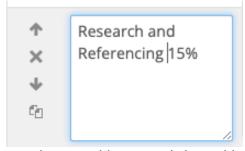

- 14. Now, you will replicate the rubric in your assessment outline.
 - All the rows must add up to 100%.
 - Delete a row by selecting the cross icon

Duplicate a row by selecting the copy icon

 To add the name of the criteria, simply click on the number and you will be able to edit the title

15. Once you are happy with your rubric and it matches the one on the assessment outline, scroll down to the bottom and select "Save".

 Please be aware- if you need to come back and edit it, you may select "Save as draft". However, once you have selected "Save", you will no longer be able to edit it.

16. Now, when you view your students' submission in the assignment tool and select "Grade", the rubric will appear on the right hand side of the screen.

Grade

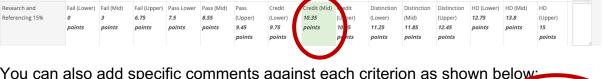

In order to expand the view of the rubric, click on the below icon.

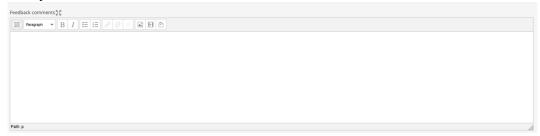

17. For each criterion, select where the submission sits on the scale as shown below. The rubric will automatically calculate the assessment grade for you.

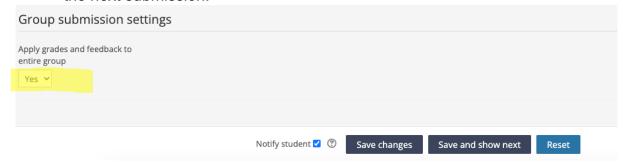

You can also add specific comments against each criterion as shown below:

18. You may also leave some overall feedback comments in the box below.

- If this is a group assessment, you may select apply the grade to all members of the group.
- You may wish to notify the student their grades and feedback are available or uncheck that box if you're not ready for the grades and feedback to be released.
- Then select "Save Changes" or "Save and Show next" to start grading the next submission.

19. Once the grade has been saved, it will automatically be in the gradebook.

Current grade in gradebook 69.06
